Chatterbox

A chatterbox is an origami paper craft that is fun to fold and even more fun to use. Perched on top of two thumbs and two fingers. It requires only a single sheet of paper and a simple folding technique.

Materials

- Paper measuring 21 cm (8 in) square
- OR use the template
- Scissors (Optional)

Instructions

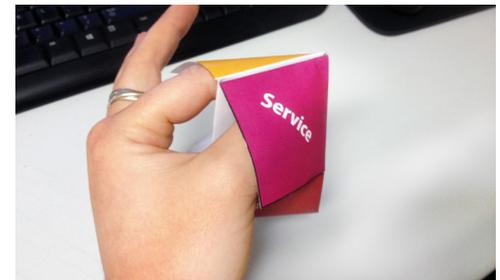

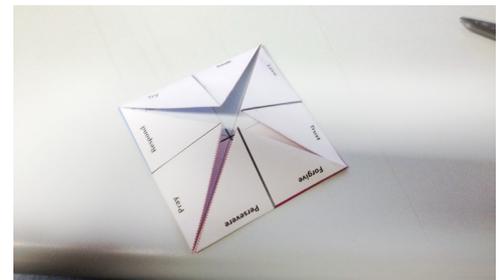

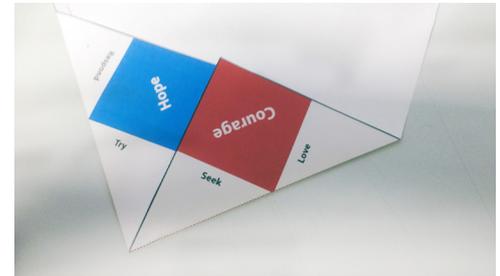

Step 1 Prepare your paper. Trim it with scissors to the correct size if necessary or cut out the template.

Step 2 Place the printed side paper face down, fold each corner into the center and point crease. Be sure not to overlap the flaps. Flip the paper over.

Step 3 Bring the four new corners into the center point and crease. Flip over again.

Step 4 Fold in half lengthwise with coloured squares on the outside and flatten. Fold in half widthwise and flatten.

Step 5 Place the thumb and pointer finger of each hand into the folds. Bring all the points together. You now have a chatterbox!
