

Making *Angel Wings*

With many feasts like Christmas and Halloween arriving at the end of the year that feature angels and dressing up as them, we've got a simple activity to do with the kids that is both practical, cost effective and kind to the earth.

Materials

- Wire coat hangers x2
- Plastic shopping bags x10-15 (white or coloured)
- Scissors
- Ribbon (white or matching colour)
- String (optional)
- Pliers (optional)

Instructions

- Step 1** Take the two wire coat hangers and bend them into wing shapes
- Step 2** Lay out the plastic bags and cut them into strips about 2-3 cm wide and 15 cm long.
- Step 3** Take the string and tie 3 or 4 lines across the wire frames. (If you would like to layer colours add as many as you would like).
- Step 4** Start adding the 'feathers' by tying the plastic bag strips to the frame until it is thoroughly covered.
- Step 5** Bend the hooks of the coat hangers together to join the wings (use pliers if necessary).
- Step 6** Cover the join with ribbon and attach two loops of ribbon for arms.
